VANCOUVER ISLANDMARKET.COM

## PROFILE

Vancouver Island Market (VIM) is a full-time market planning organization that supports not only local creatives, but other small Vancouver Island businesses as well.

## ABOUT US

Our market attracts shoppers and vendors from all over Vancouver Island, surrounding islands and even creatives on the mainland. We have the potential to impact and bring in over half a million dollars per year back into the island's economy and keep island-folks living a sustainable life-style, giving them the freedom to work from home and spend more time with their families. Community over Competition; we rise by lifting other small Vancouver Island businesses.
